Quite a number of Raleighites left the city for Beaufort yesterday. We wish them a merry time.

It was rather sickly about the Capitol yesterday, and items consequently scarce in that direction.

Rosin is said to have fallen considerably in this market since the news came in yesterday. For bargains, apply at Republican headquarters.

W. H. Pace, Esq., left the city yesterday for a few days' recreation at Beaufort. His clients will take due notice, &c.

It was all election excitement in the city yesterday, and as a matter, of course, we had but little time to look after other matters.

These roosters, that have been so flippantly exhibited in the *Constitution* for the past three or four days have suddenly disappeared. Why is it thus?

An infant born in the city yesterday morning was immediately named "Cherokee," this being the last county heard from that gave us the victory. May "Cherokee" follow the patriotic example of his illustrious "dad."

The rads have concluded and very wisely so, to change the programme for the Thursday night's demonstration, and will make it an "Irish Wake." In other words they propose to celeberate the Wake county victory and not the State as first anticipated.

A Johnson county man was prevailed upon by an enthusiastic lightning rod agent to have a rod placed on his chimney for protection against the fiery element. This was six months ago. We learn from the gentleman himself that since that time he seeks refuge in his barn in every storm.

EXCITEMENT AT BEAUFORT!

Sinking of a Steamer—No Lives Lost—All Passengers and Baggage Saved.

On Monday morning at 5:45 passengers from the Atlantic Hotel, accompanied by Mr. G. W. Charlotte, the proprietor, took the little steamer Eureka for Morehead City. About middle of the channel the revenue cutter Crawford, Baily commander, bore in sight. Each steamer like a bird through the air pursued her regular course. Just before reaching Morehead danger became apparent, and Capt. Hobbs of the Eureka sounded his whistle twice, which was a signal to bear to the right. The Crawford answered and commenced bearing as agreed on, but Capt. H. fearing the result reversed his engine and commenced backing. Confusion now commenced, as it was evident to all that a collision must take place, and in a twinkle of an eye the Eureka was struck midship, with such a force as to nearly shiver her to atoms.

Water commenced pouring in, and she began to sink and went down in four minutes.

Capt. Ed. Page, conductor of the A. & N. R. R., was struck by a piece of timber and knocked overboard. He sunk and was so long under water that all thought him lost. He finally floated up some distance off, and when help was tendered him he gallantly exclaimed, "for God sake look after the women and children." Capt. Baily, of the Crawford, quickly lowered his boat and took all aboard as little hurt and as badly scared as was ever before seen, though not frightened without a cause, as the running of ten more feet by the Eureka would have been destruction to both boat and passengers.

Out of confusion Capt. C. soon restored order by "this way, gentlemen!" He led them aft and set out a bottle of fine old Hennessey and all drank to his good health, and refreshments were furnished the ladies.

Little Miss Oliver, of Newbern, had her face somewhat bruised. Among the passengers were Dr. Blacknall, of the Yarboro House, Mr. and Miss Street, of Newbern, Mr. French, of New York, Mr. Cobb, of Baltimore, and others whom we did not know.

Not being a sea-faring man, we give the incident as it occured, and leave others to decide who was to blame. B.

ANDREWS, THE CLOTHIER.—The largest clothing house in North Carolina is that of Messrs. R. B. Andrews & Co. of this city. This house has succeeded in building up an immense trade upon merit alone, and the business-like manner in which they have conducted their operations. Mr. Andrews, the senoir and resident partner, is strictly a business man in every sense of the term, knows how and when to buy, sells at small profits first class goods, and added to these advantages is so urbame himself that our people will flock to his store. This firm is well supported in the person of Mr. S. M. Whiting, the principal salesman, a gentleman well known in Wake and surrounding counties, and whose popularity adds no little to the character of the house. See their attractive advertisement in to-day's NEWS.

A SENSIBLE COLORED MAN.—The *Christian Advocate* of this city says of a colored man who did not vote on last Thursday:

"A colored man living near this city was asked on the day of election if he had voted. He replied that he had not and that he did not wish to vote—that he had never exercised the right of suffrage and never expected to. Said he, "I do not feel competent to cast a vote," and that if his race generally would do as he had done it would be better for the country. He said that half of them did not know whom they were voting for when they went to the polls. He is about 36 years of age. This is a remarkable case."

AT IT AGAIN.—The well known popular resort, Fraps' Wine and Beer Hall in rear of A. W. Fraps' furniture ware rooms on Fayetteville street, has been reopened by J. T. Backalan & Co., and well stocked with first class liquors of every kind. As in days of yore, lager beer is the specialty of this house and those fond of the article will always find it fresh and ice cold, but Fraps' beer is too well known in and out of the city to require further comment. Read the advertisement.

A SWINDLER ARRESTED.—It will be remembered that a short while since we stated that a man claiming to be named Hunt was operating in the Northern markets, buying goods in the name of Mr. A. Creech, of this city, and Mr. R. L. Hunt, of Oxford, and ordering them to be shipped to different points. This swindler has at last come to grief, as a Philadelphia dispatch of yesterday states that he had been arrested and had a hearing. The dispatch did not state what was done with him.

THE ELECTION.

The End Draweth Nigh—The Feeling Still Intense—The Democrats Claim the State With Almost Certainty—The Transmontane Section Does Its Duty Nobly.

The excitement continued unabated throughout yesterday, and our office was besieged by eager visitors who wanted to know "how was the State?" and we could only answer during the forenoon by repeating what we had published in the morning. At 2 o'clock p. m. we received the following cheering dispatch:

"CHARLOTTE, Aug. 10.

Cherokee and Graham have gone Democratic, as well as all the other Transmontane counties, except Mitchell and Henderson. A."

This caused the Conservative side of the scales to bounce up with rapidity and the feelings of our friends became proportionately buoyant.—This proved at the same time a damper to Radicalism, and the leaders of this party commenced to flounder most amusingly. When 24 hours sooner bets were freely offered by the Rads upon 12 and 16 majority in the Convention, they could not be induced to bet upon anything, and it was clear they had been "frightened out of their boots." And now the scene became amusing in the extreme, for the ludicrous appearance of the Radicals and the awakening joy in the faces of the Democrats bespoke a new era of things—betokened plainly a Radical defeat, which, however close the result may be, since the open rejoicings of the Radicals and their expressed intentions of what they intended doing in *their* Convention, would prove a great victory to the Democrats.

At this time we are prepared to count positively the following counties as Democratic:

Alexander, Alleghany, Anson Beaufort, Buncombe, Burke, Cabarrus, Caldwell, Caswell, Carteret, Catawba, Chatham, Clay, Cleaveland, Columbus, Currituck, Davidson, Davie, Duplin, Franklin, Gates, Harnett, Hyde, Haywood, Iredell, Jackson, Lincoln, Macon, Martin, McDowell, Madison, Nash, Onslow, Orange, Robeson, Rockingham, Rowan, Sampson, Stanley, Swain, Surry, Transylvania, Union, Yancey, Wilson, Watauga, Pitt, Person and Cherokee—making 60 members.

In addition to this, we have reliable information that we have carried Polk, which would make the vote 61, and information reached us through mail yesterday from Salisbury that we had carried Yadkin. Should these statesments prove true, we would have 62 members or 4 majority, giving the Rads the Independent from Tyrrell.

This would leave the Radical representatives from the following counties:

Alamance, Bertie, Bladen, Brunswick, Camden, Caswell, Craven, Cumberland, Dare, Edgecombe, Forsythe, Gaston, Granville, Green, Guilford, Halifax, Henderson, Hertford, Johnson, Jones, Lenoir, Mitchell, Moore, New Hanover, Northampton, Pasquotank, Perquimans, Polk, Richmond, Rutherford, Tyrrell Wake, Warren, Wayne, Wilkes, Mecklenberg, Chowan, Washington, Randolph, Ashe, Stokes—58 members

Caswell county sends one member from each party.

We had hoped to be able to give our readers positive information as to the result, and thus close the anxiety under which our community and the whole State has been laboring, and we may still obtain information before we go to press, as we are using every means to obtain it over the wires.

THE LATEST.

A dispatch from Charlotte last night concedes Polk to the Radicals, although not officially heard from. The same dispatch says that Cherokee, Watauga and Caldwell are positively Democratic—this latter information in reply to direct inquiries from us, as the Radicals still claimed them last night.

A dispatch from Salisbury says that Wilkes is *reported* Radical by ten majority, while Yadkin elects James, Radical, by 38 majority.

Wilkes in 1872 gave Merrimon 1034 votes and Caldwell 1294, and in 1874 gave Pool 820 and Purnell 955.

This count gives the Democrats 60 votes, the Radicals 59, and one Independent from Tyrrell, with a doubt resting upon Wilkes, which is given to the Radicals with only a reported majority of ten.

This being the state of affairs, the official vote from all the counties may be necessary to decide the result.

The Commissioners of Mecklenburg yesterday decided the Republican candidates elected without contesting, agreeing to make no contest.

"As to being conflicted with the gout," said Mrs. Partington, "high living don't bring it on. It is incoherent in some families, and it is handed down from father to son. Mr. Hammer, poor soul, who has been so long ill with it, disinherited it from his wife's grandmother."

[From the Oxford Leader.

Are They Not Ineligible?

Sec. 7 of Art. 14th of the Canby carpet-bag constitution says:

"No person who shall hold any office or place of trust or profit under the United States, or any department thereof, or under this State, or any other State, or government, shall hold or exercise any other office or place of trust or profit under the authority of this State, or *be eligible to a seat in either House of the General Assembly.*

The act of calling a convention says that: "said delegates shall have the qualifications required of members of the House of Representatives.

The redoubtable *Colonel* I. J. Young and Road Inspector Bullock are therefore ineligible and should not be allowed to take their seats under any circumstances.

The danger of having Col. Isaac J., in a body called to change the organic law of the State is great, because: as an Internal Revenue officer, he is in Grant's pay and therefore would perhaps be governed too much by his Washington employers.

In regard to the Inspector of Roads, he, being a State office-holder would of course be opposed to incorporating into the new constitution any provision doing away with his county office and for that reason has no business in that body.

In the event of these men not being allowed to take their seats a new election would be ordered and more eligible candidates would be elected.

The bad taste and wrong of having the organic law of the State framed by State and Federal office holders is so apparent that we deem it unnecessary to make further comment.

The Nathan Murder.

The Chicago *Times* of Saturday publishes a statement from a prisoner named Billy Forrester, now serving out a term of ten years in the Illinois penitentiary for burglary. The statement is in substance that he, Forrester, is fully cognizant of the facts of the Nathan murder; that although he cannot point out the man who struck the blow he can name the three professional burglars who attempted, with the co-operation and cognizance of certain high officials in New York, to open the safe in the Nathan mansion, and who, while making this attempt, roused Mr. Nathan, and between them, in order to escape, killed him with the iron dog, which they were using as a professional tool. He refuses to reveal the names of these parties because he fears that this will interfere with his plan of bringing them to justice and of revenging himself on them for their persistent persecution of himself. Should he secure a pardon, as he hopes to, he will make this the object of his life. He affirms that the relatives of the murdered man have no knowledge whatever of the way in which he came to his death. He submitted a diagram of the Nathan house in connection with his confession, and otherwise displayed familiarity with the scene of the assassination. His confession is long and circumstantial. It implicates deeply some of the New York officials, but does not mention them by name.

Unless the proposed route of the Prince of Wales through India is made widely known throughout that country many native dignitaries in districts which he does not mean to visit will seize the occasion to levy blackmail on the people in the shape of all sorts of supplies. Some years ago in Western India an imposter levied a war tax in the out-of-the-way villages in the name and on account of the Queen. His credentials were simple, but effective, and consisted of an empty Crosse & Blackwell pickle jar, with the royal arms on the label, and a paper scrawled over in imitation of English writing, to which was affixed a seal, which was simply the impression of the bung of a mustard jar. And yet with these credentials he succeeded in levying a good deal of money until he ventured into some village where the people were more advanced.

We are now in the dead summer days. New York is an abandoned city. An evening stroll up Fifth avenue or down Broadway recalls Hawthorne's weird story of a new Adam and a new Eve coming upon our civilization, and walking down State Street at high noon, the Sabbath of eternity shedding its stillness along the street, no breath of a created being disturbing the earthly atmosphere. The fashionable churches are closed, and country preachers, who come with rural fervor and piety, complain of empty benches.—*New York Herald.*

A large expedition to the Black Hills, composed of nearly two hundred men, a few of whom were New Yorkers, has come to a bad end. They congregated at Sedalia, Mo., about the 1st of July, each member equipping himself for gold digging and Indian fighting, besides paying $70 into a general fund. They went by the way of Denver, and were depleted by rumors that United States troops were after them. Further on they dwindled to twenty-three, and these were captured by cavalry and returned to civilization.

A father, fearing an earthquake in the region of his home, sent his two boys to a distant friend's until the peril should be over. A few weeks after the father received this letter from his friend: "Please take your boys home and send down the earthquake."

It was observed by Byron that "Man, being reasonable, must get drunk;" but he has not a monopoly, for it seems the elephant is a little reasonable too, and finds in South Africa a fruit of which he is very fond, on which he gets "howling."

New crop Louisiana rice has made its appearance in market. The prospects of the incoming crop are reported to be very favorable, and unless some unforeseen accident happens in harvesting there will be a large increase in the yield.

Hon. Horatio Seymour has been elected president of the Saratoga Monument Association, and it has been proposed to have some commemoration of the surrender of Burgoyne in the centennial year 1876.

A certain minstrel manager advertises in one of the sporting papers for a tenor singer "whose vocal abilities are first-class, and who knows how to work up a laugh when the end man is getting off a joke."

In Bed with a Mother-in Law.

A certain man had occasion to visit a friend in the country one day last week, and during his absence his mother-in-law paid his wife a visit, and not liking the way things were arranged about the house, told her that she thought she would remodel them some, and at once set to work. In the first place, she didn't like their sleeping arrangements. She said it would be much nicer for them to sleep up stairs in the summer time, and persuaded her daughter to have her bed moved up, which was immediately done. Then she had a bed rigged up for herself in the down stairs bed room, as she was going to stay several days. Some other changes were made to the satisfaction of the old lady, and that night she retired early, and being pretty tired, soon fell into a sound sleep.

Her daughter, leaving the front door unlocked, so that her husband could get in when he returned, went up stairs to try the new arrangement; and, like her mother, being very much fatigued, soon fell asleep too. The man having been delayed by a storm, did not get back till late, and entering the house went into the bedroom and, judging from the snoring he heard that his wife was enjoying her sleep, he concluded not to make any light for fear of disturbing her, and disrobing he slipped in bed, and being worn out from his day's ride, was soon asleep too.

The first streaks of morning were just coming in at the window when the old lady awoke, and seeing a man in the bed, began screaming murder. The man being aroused by her cries, sprang up and found himself sitting face to face in bed with his mother-in-law. Springing out of bed, he seized his clothes, and as he left the room he met his wife, who explained to him how the bed-rooms had been changed the day before. It took the old woman several days to get over her fright, and she now says it will be some time before she goes into the remodeling business again.

RELIGIOUS KNOWLEDGE IN WESTERN TEXAS.—To escape a thunder shower I sought refuge in a cabin among the mountains, where there were three little boys. I asked the eldest who made him? After thinking over it, he answered, "God." I asked the next, "What did God make you for?" He laughed as he replied, "I 'spect for to raise calves," I asked the youngest why God made him? He thought it was to pick up chips. I asked the first, who was the first man? This was beyond his debth; grasping a turf of his yellow hair, he gave it a pull, but the answer did not come. His father, who sat in the corner puffing tobacco smoke from a corncob pipe, became quite excited, and giving a twich to his pantalcons and looking as wise as an owl, he yelled out, "I say, Jim, tell him Job was the first man."—*Christian at Work.*

In spite of the frequent expressions of disapproval on the part of the Roman Catholic clergymen, the practice of wakeing the dead still prevails to a very great extent in the north of England. At Sirkenhead, on July 23, a wake took place, at which all present became intoxicated; and in lamenting the loss of the subject of the wake, an old woman let fall a candle into the coffin. The shroud and clothes instantly caught fire and blazed up, and as all were incapable of extinguishing the flames they continued until a police officer, hearing the noise and confusion, went and extinguished them.

The marriage of Dr. Livingstone's daughter, at Hamilton, Scotland, to Mr. Alexander L. Bruce, one of the partners of a well known Edinburg firm (Messrs. William Younger & Co.,) on the 28th of July, was an event in the fashionable world. The bride received presents from nearly all parts of the globe. The venerable Dr. Moffatt, the African missionary, performed the ceremony, and the little town of Hamilton had on its holiday attire. It was in the neighboring mills of Blantyre, the weaver boy Livingstone learned his Latin declensions while working the loom.

There is a remarkable cat living in Whitneyville, Conn., near Lake Whitney. It is seven or eight years of age, and goes fishing for its meals. It will stand in water up to its thighs and seize small fish and eels. Some of the latter have been twenty inches long. The greatest achievement of this cat was the capture recently, of a fish weighing three pounds. The animal cornered the fish in shallow water and then pushed it ashore.

A TRIUMPH OVER HUMBUG.—The constant gain in popularity of the national remedy and preventive, Hostetter's Stomach Bitters, and the rapid decline of the fermented and nauseous rubbish feebly bolstered up by a false temperance cry, exemplifies a grand triumph of genuine merit over rampant humbug, at which honest folks rejoice. And well they may; for each accession of popularity to a remedy which cures and prevents intermittent and remittent fever, dyspepsia, consumption, liver complaint, urinary troubles, uterine weakness and general debility, widens the field of its beneficent operations and is a direct gain to humanity, while every falling off in public favor of a pernicious compound, powerless for good but powerful for evil, is a blessing quite as unmistakable, but for a reason very different. Let humbug for once hide its diminished head.—Would it were always as unsuccessful as now.

NEW ADVERTISEMENTS.
A CARD.
I learn on the authority of Mr. H. L. Watson, of Raleigh, that W. H. Hood, clerk for A. C. S. & Co., stated that Jno R. Brown, of Earpsboro, Johnston county, asserted in Raleigh, that Dr. Vick told negroes, at Wilder's Township, who were being influenced by a Convention negro from Smithfield, to vote against "Removal of County Seat," and for the Conservative Candidates for Convention, that if they did so, they (the negroes) would vote themselves back into slavery. I hereby declare Mr. Brown's statement to be a wilful falsehood and denounce John R. Brown as a contemptible liar.

Notice to Correspondents.

No letter can be published in these columns which is not authenticated by the name of its author. This we require, not for publication, but as a guarantee of the good faith of correspondents. Persons who violate this rule will have their communications consigned to the waste-basket.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only *one dollar* per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. *Always Cash.*

THE water famine in Charleston, S. C., has become almost alarming to the citizens of that town, who are now casting about as to how they will even get drinking water.—A goodly number of private cisterns have become dry, and the washer-women are in a great quandary.

THE Richmond (Va.) *Whig* doesn't doubt that the time is coming when Southerners can and will complete again for the great prizes of national politics. But the time hasn't come yet, in the *Whig's* opinion, and it thinks the most earnest opposition to the placing of a Southern name on the Democratic ticket, next year, would come from the Southern delegates.

BISHOP QUINTARD of Tennessee has gone to Europe to solicit aid for the university of the South, situated on the Cumbeland mountains. The university originated with Bishop Polk a few years before the war, and at one time promised to become one of the greatest schools of learning in the Union. It is under the care of the Episcopal church.

ANDREW JOHNSON is the seventh member of the forty-fourth Congress to die before the regular labors of that body have commenced. The vacant chairs in the house are those of Mr. Buffington of Massachusetts and Mr. Hersey of Maine, (two republicans,) and of Mr. Allen of New York, Mr. Head of Tennessee and Mr. La Dow of Oregon, [three democrats.]

WE must make a general apology to our readers for a want of editorial matter, and indeed for all the departments of our paper, until the question of the Convention is settled, as in the present feverish condition of the public mind as to the result, in which we share, we find it almost impossible to do any work. But deeming our readers are equally interested in this question of vital importance, we have endeavored to keep them fully posted as to all the returns in our hands.

ASSISTANT SURGEON WM. H. CARSON writes to the New Orleans *Bulletin* from Fort Pickens, under date of July 30, in reference to the origin and spread of the yellow fever, in the neighborhood of Pensacola. He says that "the weight of evidence seems to be in the opening of a number of old drains, and the upturning of soil in the neighborhood as the cause of the disease." There were some, however, who thought that it was brought to the shore by communication with the infected ship Von Moltke at quarantine. Others attributed its origin to the uprooting of a great area of the Jerusalem shrub, a tall weed growing rank in this neighborhood, and the consequent exposure of sub-soil matter. Some old drains were opened, which had long been covered, and were filled with decaying vegetable matter.

Two important inventions, in their bearing upon the safety of travel, have just been announced. The one is an electric signal light, designed for use at sea, which has just been perfected by Commander Parker, chief signal officer of the navy. This light, besides being vastly more penetrant than any heretofore known, is so manipulated as to emit a shower of electric sparks or stars. The other invention consists of a system of electrical railroad signals, devised by Mr. Spagnotetti, chief electrician of the Great Western railway of England, which is expected to do away with signal men and give the engineer of each train control over the signals on his line. Signals may be sent to operate mechanical contrivances one hundred miles or more away from the signal station. The engineer of a train can, without stopping, set up a danger signal behind his train and ring a bell at the place to which he is coming. On arrival at that place he can drop the first danger signal, set up another, and again ring an alarm at the next crossing or station. Arrangements are also being made for the working of switches in the same way.

THE RESULT.

Even at this hour, five days after the election of last Thursday, we are unable to say positively what is the result of that election. At this time we have information which we deem thoroughly reliable, where it is not official, giving us 60 members of the Convention, the Radicals 58, and Ransom, independent, from Tyrrell, with Cherokee to hear from. It is believed almost beyond question that the latter county has gone Democratic, which would give that party control of the Convention, according to our count, by two majority. In Mecklenburg (which county we count with the Radical vote,) a contest is at present pending on account of illegal and irregular voting in several Townships in that county, but with what result we are not advised, although our telegraphic columns may give the latest information concerning this contest.

We can sincerely express the hope and belief that the Convention will be Democratic by a small majority, and the State thus saved from that condition into which Radicalism would have plunged us, for, with all their protestations, we could not hope that the Radicals, had they obtained control of the Convention, would have thought of adjourning until they had accomplished such purposes as those expressed by the negro member, Jno. Page, from Chowan.

A CORRESPONDENT of the Springfield (Mass.) *Republican* thinks it a little queer that Tennessee, not a prominent State, should have given the country three Presidents—Jackson, Polk and Johnson—and no less queer that they were all born in the Carolinas, which never supplied a President except in this way. Jackson was born in South Carolina, Polk and Johnson in North Carolina. None of the Pinckneys, Rutledges or Middletons of Jefferson's time, nor Lowndes, Calhoun, Hayne, &c., of the next generation, nor any of the accomplished statesmen of North Carolina could rise so high in office as those illiterate Carolinians, Jackson and Johnson. Nor could New York, with its Hamiltons, Clintons, Wrights, Sewards and the rest, get more than one chance at the presidency—in Van Buren—nor Pennsylvania more than one, in Buchanan. Johnson's presidency, the writer thinks, may be called "the accident of an accident," since, he alleges, it by an accidental prominence at the moment that he displaced Hamlin on the ticket of 1864, and then by the accident of Lincoln's assissination that he became President. Lincoln desired to have Johnson nominated, but, according to a story which is not improbable, he had previously sounded Butler about running in Hamlin's place, and Butler had refused—expecting, it was said, greater glory by military successes than the Vice-Presidency could give him. Here is one instance, certainly, in which a man's mistaken estimate of his own genius has been of signal benefit to his fellow beings. It is not pleasant to think of the fate Butler would have given the country if he had succeeded Lincoln.

A Horrible Accident—A Man Ripped Open with a Saw.

We learn from Mr. J. R. Grover, of Pickens county, that a sad and fatal accident occurred to Mr. Wm. Page, who resided near Heard's store in Dawson county, on last Thursday week, the 29th ult. Mr. A. J. Kelley recently erected a new circular saw on Yellow creek, near the Cherokee line, and Mr. Page having never seen a circular saw in operation went over to see it. When the stock had been put on and the saw had cut off the first slab, Mr. Page and his neighbor, Mr. Nelems, picked up the slab to carry it off, when the saw caught the slab and jerked Mr. Page against the saw, which inflicted a wound that killed him instantaneously. The saw struck him between the point of his right shoulder and neck, ripping his body open to the lower part of his breast bone, exposing his lugs, while the quivering flesh was covered with his life's blood. He leaves a wife and two children to mourn his untimely and sad taking off.—*Marietta (Ga.) Journal.*

Donaldson Reported Alive—The Æronaut Seen in Algonac, Michigan—His Disappearance said to be an Advertising Dodge.

Since Washington H. Donaldson, the æronaut, and his companion, Grimwood, made their ascension from Chicago in a balloon on July 15th, from which time they have not been seen, there have been various rumors and conjectures regarding their probable fate. While many believe that Donaldson and his companion are lost, there are many persons who believe that it is all an ingenious advertising dodge, and that Mr. Donaldson and his companion will make their appearance again. There have been various rumors since his disappearance. One was that the balloon was seen passing over Lake Michigan dragging through the water. Another, that the balloon had been seen passing over the land in a northerly direction. Then his body was said to have been found, but it turned out to be the body of a German sailor who had been washed from some steamer. Another report states that a bottle was found floating in Lake Michigan containing a memorandum signed "W. S. G." (Donaldson's companion) dated July 16, stating that the gas was escaping, and that they could not stay up more than an hour longer.

The latest sensation comes from Algonac, Michigan, a town on the St. Clair river, in the shape of a letter from J. H. Stanwood to a well known professional in this city, who emphatically declares that he saw Donaldson in company with a young man in that village last Friday. He was positive as to Donaldson's identity, having frequently seen him at Barnum's Hippodrome in New York last winter. He says: "Donaldson had no moustache, but the scar on his cheek rendered recognition an easy matter."

The mysterious disappearance and prolonged absence of Donaldson, in view of the letter received yesterday, is considered by many a revival of Donaldson's alleged advertising trick, introduced by him recently in Philadelphia, where, after making an ascent from that city, a false dispatch was published announcing that Donaldson's dead body had been found in the basket of his balloon near a small village in New Jersey. This dispatch was signed "Dr. Fuller." Afterward an investigation developed the fact that the dispatch emanated from Donaldson himself.

A paper printed in Allentown, Pa., tells the following: Two years ago Washington H. Donaldson resided in this city for several months, and made several ascensions from Central square. While here he told Mr. Kramer, at whose hotel he boarded, that a notion had entered his head which would realize him a pile of money if carried out. It was this: He would make an ascension, if a favorable opportunity offered, accompanied by a ready writer, who was to take notes while in the air of the experience they met with as it appeared to him (Donaldson). For this purpose they would ascend to an unusual altitude, and remain up as long as possible. After having gained the desired knowledge of aerial travel, they would descend at a place where they were not likely to be seen, and repair to some quiet and undisturbed nook, and then the ready writer was to enlarge on his notes, which would be printed in book form and distributed to the world."

A Resurrection of Rotteaness.

The man who at this day attempts to bring the Beecher scandal again to the surface is an enemy of the public. It had been buried where it was thought there was no hope of resurrection. But a love of notoriety, or an insane jealousy of the great Brooklyn preacher, has prompted Theodore Tilton to drag it again to the surface, and disgust the public with its odious features. There is nothing to be achieved by this act, save a certain unenviable notoriety for a man whom the public would gladly forget, and to whose discreditable career it has already been too charitable. There is not the least probability that any Brooklyn jury will ever convict the Plymouth pastor, and scandal can only do injury to public morals and the cause of religion. If there were any way in which Tilton could be dropped out of sight forever, the great majority of readers of newspapers would rejoice over it. He can at least be told in advance of the opinion which his ill-advised course creates. He is a nuisance that ought to be summarily abated.

A BABY SHOT BY A PISTOL.—An unfortunate accident occurred on Tuesday afternoon, in Hartford county by which an infant son of Edward Hall, who lives near Abingdon, was wounded in the mouth by a ball from a pistol. An elder brother, a little fellow about three years old, had taken the pistol, which was a diminutive one, out of a drawer where it had been lying for years, and had been playing with it. The baby, about fifteen months old, was seated on his mother's lap, and beginning to fret, Mrs. Hall picked up the pistol, and to amuse him called his attention to its bright silver mounting. As he raised his head to look, the pistol was discharged, the ball taking effect under the left nostril and lodging in the mouth. The mother was, of course, almost frantic with grief, but had presence of mind to summon help, and sent for the child's father and for physicians. Before the latter arrived, however, arrangements were made to convey the child to Baltimore, where the ball was extracted by Professor Chris. Johnson. The little fellow is now rapidly recovering.—*Belair Democrat.*

A good deal of denominational enterprise is exhibited in Illinois. "Rev. Peter Green, a Methodist, preached a sermon in Scottsville, and invited any dissenter from his doctrine to reply. Mr. Olbert, a Baptist, accepted the invitation. Brother Barr, an adherent of the clergyman, commanded Brother Olbert to stop talking. A quarrel ensued, then a fight, and the meeting ended in confusion. The factious met next in court, where they fought with canes, stones, knives and pistols, but nobody was more than slightly hurt."

Gen. Grant is sunburnt awfully, this summer. It comes from his riding out so much in the sun in that narrow-brimmed hat; and if out-of-doors, when riding or walking, alone or with only a gent or two with him, he has ever been seen without a cigar in his mouth, it was because he had just thrown away the stump of his last Havana.—*Long Branch Letter.*

The train-robbers of Southern Illinois on Wednesday night cut open a switch on the Toledo, Wabash & Western Railway, near Danville, Ill., and succeeded in killing the engineer of a pilot engine which was preceding the regular express train, fearing danger from washouts.

The Episcopal Convocation in Pittsboro.

RALEIGH, Aug. 9, 1875.

Messrs. Editors:—The convocation of Raleigh met in St. Bartholomew's church, Pittsboro, on Wednesday, July 28th. Services were held both morning and night, for three days, at which stirring addresses and sermons were delivered by the visiting clergy. The weather was delightful, and the good people of the neighborhood turned out in large numbers, the congregations increasing in size with every service. The responses were hearty, and the music, which was thoroughly churchly in its character, was beautiful and well rendered. The kindness and hospitality of the people was unbounded, and those present will long remember their visit to Pittsboro with feelings of the greatest pleasure. The church in which we worshipped has recently been greatly improved by the addition of a recess chancel, which, with its handsome memorial windows, has added beauty to the edifice, and afforded more room for the growing congregation.

The Rev. R. B. Sutton, D. D., was re-elected Dean, and the next meeting of the convocation will be held in St. John's church, Fayetteville, on Wednesday October 27th.

An Effort to Give Jefferson Davis a Home in Texas.

"We are pleased to notice that many towns in Texas have organized associations having for their purpose the donation of a homestead to Jefferson Davis. This is a move in the the right direction, and wish it abundant success. When the arbitrament of arms settled forever the question of Southern independence, it not only stripped Mr. Davis of everything and closed every avenue to him, but he has been made to suffer every way for the political sins of his people. Appreciating his great sacrifices made for the South, some noble Texans have undertaken to build him a homestead as a friendly offering of love to our fallen chieftain. They appeal to Texans everywhere, and especially the ladies, to aid them in this work. Shall they be heeded?"

The above extract we take from the *Advance Guard* published at Decatur, Texas, and we approve of the noble sentiments contained in it. Will not all the towns organize associations for the purpose of buying a homestead for Ex-President Davis. We sincerely hope so. This can be done and not a single person will feel the least expense in doing so. One dollar is a very small sum for each individual to donate for this purpose. We can not let this subject rest. We feel too deep an interest in it to do so. Our friends must wake up. Call our committee together and let them take the whole matter under consideration and we are bound to succeed. We hope the liberality of Tarrant county and Fort Worth will never be called in question concerning this important subject.—*Fort Worth (Texas) Standard.*

RALEIGH HIGH SCHOOL,

An English, Classical, Mathematical, and Military School for Boys.

REV. JOSEPH M. ATKINSON, } Principals
CHARLES H. SCOTT, }

The second annual session of this school will begin WEDNESDAY, September, 1st, 1875. The Principals have procured for the school the commodious and attractive residence on Newbern Avenue, well-known in Raleigh as the "Cotton Place" more recently owned and handsomely refitted by Col. R. Kingsland.

Besides continuing their Day School they propose taking a limited number of boys of good character and conduct to board in their own family.

The training of the school, as heretofore, will be full, thorough and accurate, preparing its pupils for college or for business life.

Competent assistants will be provided in all departments, as may be required. The Principals trust that it is scarcely necessary for them to say that whilst the school will continue to be conducted on Christian principles, it will be entirely without denominational aim or bias.

For circulars and other information address either of the Principals, Raleigh, North Carolina. jy 3—1m

CONSTITUTION MAKING.—The work of constitution making seems to be the most interesting of the political events of this summer. Last winter the Legislature of North Carolina called a constitutional convention, making the election of delegates imperative. The result of the election, which has just been held, is certain. If the republicans have carried the State there is likely to be a convention, as they committed themselves candidates to an agreement to vote, on meeting, for an immediate adjournment. In Alabama the democrats have carried a constitutional convention by from ten thousand to fifteen thousand majority. Already a convention has just framed a new constitution, which provides for the creation of State and county offices, except to a trifling extent, limits the percentage of taxation, lengthens the terms of the supreme judges, prohibits special legislation, requires corporations to publish their accounts, and significantly strikes out the word "white" in the clause describing the qualifications for governor. Also, it makes liberal provision for public schools and forbids the education of children by their enemies, that is, by the northern constitutional conventions which act as wisely and as justly as that of Missouri. "The father to the though." Prudent and conservative men in the land see that these predictions are fulfilled. The conciliatory and peace temper exhibited among the leading minds of the Southern people leads to the belief that apart from all other considerations the people will appreciate their responsibility, and realize that the white county is looking to see what the blacks will do, and that a united and unfriendly party is eager to see them make such changes in the state laws as will operate in the approaching presidential election to their disadvantage.—*Baltimore Gazette.*

There are over 2,700 varieties of grapes known by over 1,800 names, 1,000 pears, 200 of cherries, 150 of plums, 300 of our native grapes, 50 varieties of gooseberries, 80 of raspberries, and 30 of strawberries, according to a count somebody.

Among the remarkable productions of California is the Hogan Quince of Medieine Co. The father measures 2 inches in his stockings, is over 6 feet 6 inches, a second measures 6 feet 7 inches, and a third 6 feet 7 inches.

Another boy pulled the bung out of a barrel and stuck in his head. The barrel rolled over and the bung-hole badly that it had to be amputated; and the father of the boy sues the owner of the barrel.

Gen. A. P. Stewart, a distinguished Confederate officer, is canvassing and lecturing through Mississippi in behalf of the State University, at Oxford, of which institution he is president.

An additional recovery of specie to the amount of $100,000 has been made by the divers at the wreck of the steamer Schiller.

It is estimated that over 100,000 head of cattle have been driven into Texas this year. Of this number 50,000 have been sold.

If you want a pure Whiskey for medicine; if you want a pure Whiskey for family use; if you want a very pure and good Whiskey which will do you good ask R. F. Jones & Co. to send you a barrel, keg or a demijohn, and you will find it as represented. "Not a headache in a hogshead of it."

JANUARY 13, 1872.

I have analyzed the Whiskey known under the brand of "B Select," controlled by Messrs. Walter D. Blair & Co., Richmond, Va., and find it free from fusil oil and other impurities, and recommend its use for medicinal and family purposes.

THE MOUNTAIN HOTEL,

A FIRST CLASS HOUSE.

Its elevated and cool location, in full view of beautiful MOUNTAIN SCENERY; removed from the heat, noise and bustle of the Public Square, makes it the most desirable house for the invalid, and equally so for the seekers of pleasure.

Its character as a FIRST CLASS HOUSE, excelling every other in Morganton, is a fact too well known to require further remark; but that in consequence of the passage of THE ABOMINABLE CIVIL RIGHTS BILL by Congress, it is no longer a PUBLIC INN, TAVERN or HOTEL for the entertainment of the public generally; but is strictly open for the accommodation of such if my friends as choose to call upon me upon such terms per day, week or month as we may agree upon, and to only such persons as I shall deem proper inmates on Happoldt's SELECT BOARDING HOUSE.

KITTRELL'S SPRINGS,

Owing to the repeated enquiries in regard to the opening of Kittrell's Springs, and the desire expressed by so many to use the water, I will here state, I have furnished 18 or 20 nice, large, cool rooms, and am prepared to accommodate a limited number of invalids.

Medical attention can be had of Dr. T. C. Hines, who has been resident Physician for the last 10 or 12 years.

Persons wishing to use these valuable waters had best apply early.

Price, $20 00 per month, Children and Servants half rates.

COTTON GINS.

TRIALS OF GINS AT THE WILMINGTON FAIR, Dec. 13th, 1874, between a 30 Circular Needle Gin and 40 saw Taylor Gin, each Gin having 100 lbs. seed cotton:

NEEDLE GIN ginned 100 lbs. in 6 minutes, 7 lbs. Lint.
TAYLOR Saw Gin " 100 lbs. in 9 minutes, 6½ lbs. Lint.
NEEDLE GIN made 36 lbs. Lint,
TAYLOR Saw Gin " 25½ lbs. Lint.

Steam pressure to run Needle Gin was ½ less.

PLEASE EXAMINE THE PRACTICAL RESULT.

The merchantable bale of cotton being an average of four hundred and seventy pounds, for convenience we submit a test on thirteen hundred pounds cotton in seed, as being a near approximate to the merchantable bale in lint.

TEST OF NEEDLE GIN.

Thirteen hundred pounds of seed cotton yielding in proportion to the above test, produces four hundred and sixty-eight pounds of lint and calculating the price per pound at fourteen cents, (as an average rate obtained for the seasons crop), the net value of the production would be $65 52. The time consumed in ginning would be seventy-eight minutes to the bale.

TEST OF TAYLOR SAW GIN.

Thirteen hundred pounds of seed cotton yielding in above proportion, would produce four hundred and thirty-two pounds lint (or some thirty-six lbs. lint per bale less than the Needle Gin), which at fourteen cents would net $40 48—or a loss of $25 04 per bale as compared with the Needle Gin. This would require the ginning of only fifty-three bales TO PAY FOR YOUR GIN, as the amount saved would buy you a Forty Circle Gin.

NOON DISPATCHES.

Rioting in Glasgow.

LONDON, Aug. 10.—Special despatches to the *Standard* from Glasgow report sixty rioters, many of whom are badly hurt, were brought before the Magistrate yesterday morning and remanded to jail. The rising broke out again in the suburbs Monday, and the volunteers and regular troops were ordered to hold themselves in readiness, but the disturbance was quieted by reading the riot act. It is remarked that the mobs of the Catholic, armed with hatchets, steel knuckles and knives, are organized and acting under leaders. It is reported that several men in custody are head centres.

The Yellow Fever at Jacksonville, Florida.

JACKSONVILLE, Fla., Aug. 10.—The following resolution was passed before the city council of this city last night, for the purpose of putting an end to the flying reports of yellow fever being in the city.

Resolved, That it is the unanimous opinion of the Duval county medical society, there being a full attendance, that there has not been nor is there now any case of yellow fever or any disease resembling it in our midst.

The Alabama Convention—Grasshoppers.

MONTGOMERY, ALA., Aug. 10.—Complete returns show a majority for Convention of 16,500. Delegates elected: Dems. 81, Independent Democrats 6, Reps. 12.

Grasshoppers are damaging crops in North Alabama.

Miscellaneous Items.

Senor Lagosta, of Madrid, has gone to Paris.

The first bale of seed cotton from Alabama arrived in New York on Monday.

A scull race Monday evening at Rockaway, near New York, between the Biglin and Toneyck, resulted in the defeat of Biglin. Course, a mile and a half and return.

The Election in the Indian Territory.

FORT GIBSON, I. T., Aug. 10.—Election quiet except at one precinct. Returns slow, on account of high water, which prevented voters from reaching the polls. It is generally conceded that Ross is re-elected. Ross' party has a majority in the Senate and Council.

MIDNIGHT DISPATCHES.

Washington and Other Affairs.

WASHINGTON, Aug. 10.—Ottoman's bail reduced to forty thousand dollars, which counsel says he cannot give in consequence of attachment upon his property.

Commodore Ammen, Acting Secretary of the Navy, to-day received from the Acting Secretary of State a dispatch from Tripoli, dated Aug. 7, stating that Mr. Vidal, the American consul there, and his lady, had been insulted by the Tripolian sailors, and asking whether any of our vessels of war could could conveniently reach that point. Order was immediately given that the United States steamer Hartford, Capt. Hannony, now said to be en-route home from the Asiatic station, proceed to Tripoli to inquire into the facts and demand that the perpetrators of the insult be arrested and punished. Rear Admiral Worden, commanding the European station, was also instructed to keep himself advised of the circumstances, and if necessary send other vessels to Tripoli to demand an apology and punishment of parties.

The Execution of the Late Fanatical Rioters in South America.

PANAMA.—In Samnigal Salvador, where the recent fanatical riots took place, order has been established. Pres't Gonzales had abbout fifty of those engaged in it shot in squads at different towns between Samnigal and the capital, causing Padres, who occasioned the outbreak, to witness the executions. Many criminals confessed they were assured by Padres that they might rob the rich, provided they gave a part to the church.

Great sorrow and indignation have been expressed throughout Central America at the events of Samnigal, in which the respectable part of the clergy join.

New York Items.

Judge Lawrence of the Supreme Court granted a motion for a bill of particulars in the suit of Mayor, &c., vs. Tweed. The suit in this case is to recover money paid on alleged ficticious bills to Edward Mariner, approved by Tweed as commissioner of Public Works.

War In Panama.

PANAMA, Aug. 10.—The position of the Republic of Columbus is more complicated. The contest for the presidency threatens a general war. Difficulty sectional. A fight took place at Camoranes in the State of Magdalena between the State forces and the revolutionists. The revolutionists consisting of 600 were defeated with a loss of several officers and a park of artillery. It is considered that war has begun.

THE BUFFALO LITHIA WATERS

As A Medicinal Agent!

DYSPEPSIA.

Case of the Rev. Edward Hines, of the Presbyterian Synod of North Carolina.

GRANVILLE CO., N. C., Oct. 20, 1871.

COL. THOS. F. GOODE:

Dear Sir—It affords me great pleasure to place at your disposal the following statement, showing benefit derived from the use of the Buffalo water. During the earlier part of my life, for more than twenty years, I was a great sufferer from dyspepsia, accompanied with frequent and violent attacks sick nervous headache, having at least one attack every week, which lasted generally about twenty-four hours. During the month of August, 1867, I spent about a week at Buffalo Springs. From this short visit I derived decided benefit for a time, but after a few months, the old symptoms returned with all their former violence, and continued until August, 1854. At this time, when slowly recovering from a long spell of typhoid fever, I again visited the Buffalo Springs, remaining there about four weeks, using the water freely during the whole time. The result was perfect relief from dyspepsia, and its accompanying ill, nervous headache. From that day to the present my health has been uniformly good, and to-day I am in a condition to obey, without the slightest inconvenience, the injunction of the Apostle, "Eat whatsoever is set before you, asking no questions."

Sincerely yours,
E. HINES.

DYSPEPSIA, NERVOUS EXCITEMENT, Etc.

Case of the Rev. Herbert T. Bacon of the Virginia Methodist Conference.

CLARKSVILLE, VA., March 30th, 1874.

COL. THOS. F. GOODE:

Dear Sir—It is with much pleasure I avail myself of the opportunity to attest the virtues of the waters of the Buffalo Springs, and with the hope that others who have been sufferers like myself, may enjoy its benefits.

In the Summer of 1870, I paid my first visit to the springs, a broken down invalid, to whom life was truly a burden, and who had been kept alive for the eight months previous by cod-liver oil and stimulants. So feebly were my digestive powers that my stomach refused almost every kind of nourishment. I had become very nervous and wakeful, and my spirits were continually and exceedingly depressed.

After the first night of my stay, before going to breakfast, I drank half a dozen glasses of the water, and to my surprise, it gave me that to which I had been a stranger for months past—a sharp, keen appetite—and what was still more desirable, it relaxed my spirits, and I found myself laughing and talking with those who sat near me, with an enjoyment for a long time unknown.

From this time my recovery was rapid, I used the water regularly for many months, (profiting by it after the weather had become quite cold,) and attribute the improvement, which resulted in my entire restoration, under the blessing of Providence, to the effects of the waters of the Buffalo Springs.

As a tonic and exhilarant, I do not think they can be surpassed; and to one who is a sufferer from excessive nervousness, from wakefulness at night, from depression of spirits combined with dyspepsia, I am sure I can recommend confidently a trial of the water of the Buffalo Springs.

Yours very respectfully,
HERBERT T. BACON.

PARALYSIS OF THE BLADDER.

Case of Dr. Paul C. Venable, of Mecklenburg County, Va., one of the Oldest Practitioners in the State.

BUFFALO SPRINGS, VA., August 12, 1874.

TO COLONEL GOODE:

An attack of meningitis in October last left me with paralysis on the bladder, rendering necessary the use of the catheter in the discharge of the urine. The treatment to restore the sensibility of the bladder resulted in such extreme sensitiveness as to occasion spasm of the bladder and urethra whenever there was a passage of the urine. These symptoms resisted all remedies for the space of six months. I then came to Buffalo Springs, and after using the Lithia Water for some days the disposition to spasm was entirely removed, followed by a free flow of urine. From the great amelioration of my distressing symptoms in so short a time, when I had despaired of relief from any quarter, I am inclined to believe that I shall be permanently restored to health under the use of this remarkable water. I confidently recommend it to all persons suffering from any affection of the bladder or kidneys.

Respectfully,
PAUL C. VENABLE, M. D.

SPASMODIC STRICTURE.

Case of Wm A. Mason of Danville, Va.

BUFFALO SPRINGS, VA., July 15, 1874.

COLONEL GOODE:

About a year ago I began to suffer from stricture of the uretha, said by physicians to be spasmodic in its character. I consulted some of the most eminent medical men of the country in vain. When I arrived at the Springs I could not urinate without the use of a catheter. I was totally without appetite, and my general system was reduced to a state of great debility. I have now been using the Buffalo Water Nos. 1 and 2 (for the most part the latter,) for ten days, and the effect has appeared to me almost miraculous. My urine is now passed without difficulty. My appetite is ravenous, and I feel that I am restored to my usual health.

Very respectfully,
WILLIAM A. MASON.

COMPLICATION OF RHEUMATISM AND GOUT.

Case of Col. William L. Saunders, of the Wilmington "Daily Journal."

COL. THOS. L. GOODE:

Dear Sir—There cannot possibly be a doubt that I was very greatly benefitted by the use of the Buffalo Waters. When I reached the Buffalo springs, on the 12th of August, 1874, I had been suffering for several years with a complication of rheumatism and gout, the attacks increasing in frequency and being of longer duration each year. I had been more or less lame for about eighteen months, so that I was obliged to use a cane in walking. My general health became affected, and I felt apprehensive that I should be an invalid for life. I remained at Buffalo six weeks, using the water of Spring No. 2. After being there some two weeks, improvement in my general health became very perceptible, and continued, until it now seems entirely restored; and with this improvement, my rheumatic and gouty troubles have, in a great degree, disappeared. I am now walking without a cane, and with more ease and comfort than I have done for two years. It is true I have not been entirely free from the attacks referred to since I began to use the water, but the attacks last scarcely as many days as formerly they lasted weeks, and the pain has diminished in equal proportion. If no more shall be done for my relief than has been done already, I shall ever be grateful to Buffalo. I feel great confidence, however, that by the continued use of the water I shall be able to control, if not entirely overcome the disease. I am now using the water at home, and find that its properties are not impaired by bottling and transportation.

I am a firm believer in the virtues of the Buffalo Water.

Very respectfully,
W. L. SAUNDERS.

MEDICINAL.

TAKE SIMMONS' LIVER REGULATOR

TAKE

SIMMONS LIVER REGULATOR

For all diseases of the Liver, Stomach and Spleen. It is eminently a Family Medicine; and by being kept ready for immediate resort will save many an hour of suffering and many a dollar in time and doctor's bills.

After Forty Years trial it is still receiving the most unqualified testimonials of its virtues from persons of the highest character and responsibility. Eminent physicians commend it as the most

Effectual Specific

for CONSTIPATION, HEADACHE, PAIN in the SHOULDERS, DIZZINESS, SOUR STOMACH, bad taste in the mouth, BILIOUS ATTACKS, PALPITATION, of the HEART, PAIN in the region of the KIDNEYS, DESPONDENCY, GLOOM and forbodings of EVIL, all of which are the offspring of a diseased LIVER.

If you feel dull, drowsy, debilitated, have frequent headache, mouth tastes badly, poor appetite, and tongue coated, you are suffering from TORPID LIVER, or "BILIOUSNESS," and nothing will cure you so speedily and permanently.

The LIVER, the largest organ in the body, is generally the seat of the disease, and if not regulated in time, great suffering, wretchedness, and DEATH will ensue.

Armed with this ANTIDOTE, all climates and changes of water and food may be faced without fear. As a Remedy in MALARIOUS FEVERS, BOWEL COMPLAINTS, RESTLESSNESS, JAUNDICE, NAUSEA,

The Cheapest, Purest and Best Family Medicine in the World!!

I have never seen or tried such a simple, efficacious, satisfactory and pleasant remedy in my life." H. HAINER, St Louis, Mo.

Hon. Alex. H. Stephens.

"I occasionally use, when my condition requires it, Doctor Simmons' Liver Regulator, with good effect." HON. ALEX. H. STEPHENS.

Governor of Alabama:

"Your Regulator has been in use in my family for some time, and I am persuaded it is a valuable addition to the medical science.—GOV'R J. GILL SHORTER, Ala.

"I have used the Regulator in my family for the past seventeen years. I can sadly recommend it to the world as the best medicine I have ever used for that class of diseases it purports to cure." H. F. THIGPEN, President of City Bank.

"Simmons' Liver Regulator has proved a good and efficacious medicine."—C. A. NORTHING, Druggist.

We have been acquainted with Dr. Simmons' Liver Medicine for more than 20 years, and know it to be the best Liver Regulator ever offered to the public."—M. R. LYON and H. L. LYON, Bellefontaine, Ga.

SIMMONS' LIVER REGULATOR.

For DYSPEPSIA, CONSTIPATION, Jaundice, Bilious attacks, SICK HEADACHE, Colic, Depression of Spirits, SOUR STOMACH, Heart-Burn, &c., &c.

IT HAS NO EQUAL.

It is a faultless family medicine,
Does disarrange the system,
Is sure to cure if taken regularly.
Is no drastic violent medicine.
Does not interfere with business.
Is no intoxicating beverage.
Contains the simplest and best remedies.

CAUTION!

Buy no Powders or Prepared SIMMONS' LIVER REGULATOR unless in our engraved wrapper with Trade Mark, Stamp and Signature unbroken, None other is genuine.

J. H. ZEILIN & CO.,
Macon, Ga., and Philadelphia.

THE SYMPTOMS of Liver Complaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is MISTAKEN for rheumatism. The stomach is affected with LOSS OF APPETITE and sickness, bowels in general COSTIVE, sometimes alternating with lax. The HEAD is troubled with pain, and dull, heavy sensation, considerable LOSS OF MEMORY, accompanied with painful sensation of having LEFT UNDONE something which ought to have been done. Often complaining of weakness, DEBILITY, and low spirits. Sometimes MANY of the above symtoms attend the disease, and at other times very FEW of them; but the LIVER is generally the organ most involved.

Nearly all diseases originate from Indigestion and Torpidity of the Liver, and relief is always anxiously sought after. If the Liver is Regulated in its action, health is almost invariably secured. Want of action in the Liver causes Headache, Constipation, Jaundice, Pain in the Shoulders, Cough, Chills, Dizziness, Sour Stomach, bad taste in the mouth, Bilious attacks, Palpitation of the Heart, depression of spirits, or the blues, and a hundred other symptoms, for which SIMMONS' LIVER REGULATOR is the best remedy that has ever been discovered. It sets mildly, effectually, and being a simple vegetable compound, can do no injury in any quantities that it may be taken. It is harmless in every way; it has been used for forty years, and hundreds of the good and great from all parts of the country will vouch for its being the purest and best.
